

ESB Scholarship application form

As part of its general interest mission, ESB has launched a student aid programme, including a financial component. The School offers scholarships, financed by donations from companies and individuals, subsidies received from local or national authorities and by any other means deemed compatible with the objective. The number of scholarships and their amount depend on

- ✓ The amount of money collected
- ✓ The number of applications
- ✓ The situation of the applicants

Each student applying to ESB can submit a grant application when registering, regardless of the course of study.

This file and the information it contains are confidential. It is only compiled for the purpose of evaluating the applicant's situation.

Deadline for submission

Two commissions are organised

- "Summer" committee: The application must be sent by e-mail to admission@esb-campus.fr before June 15 for Bachelors, competition B Engineer and July 14 for BTS, competition A and International Engineer.
- "Winter" committee in January to assist students who need help during their studies. Applications can be downloaded from ESB web platform and should be sent to admission@esb-campus.fr

The files are studied by an independent committee made up of representatives of the ESB and the students.

The scholarship is granted for one year. It can be combined with other grants (National or International grants for example). It can be renewed (subject to the financial possibilities of the School).

For the "Summer 2022" committee, the amount of the scholarship will be limited to 2500€.
